

Produced annually by The Moyer Foundation, the **"What Cancer Cannot Do"** calendar is a full-color, 12-month calendar for 2011 featuring artwork created by Hutch School students whose lives have been affected by cancer. Each month displays colorful drawings as well as information on cancer prevention and inspiring messages from Hutch School children on "What Cancer Cannot Do."

You can order the calendars (a great Christmas gift) on The Moyer Foundation's website www.moyerfoundation.org or purchase them at Hutch School. They are \$5.00 each.

Proceeds from the calendar help provide teachers, educational materials, supplies and maintain a therapeutic environment that is conducive to the special needs of the students.
